

Mark Kendall Signs with Guitar Maker Dan Dishaw

Written by Povohost -

Mark has signed with guitar maker Dan Dishaw from Syracuse, New York. Dan has over 35 years experience in the MI business. He has been an authorized service facility for 15 major manufactures such as Gibson, Fender, Ibanez, Ovation, etc. In addition, he is well known for his meticulous restoration expertise on a wide variety of rare and collectable vintage string instruments. After a lot of networking back and forth on the specifications on a guitar that Mark would love and play exclusively, Dan delivered and Mark is extremely happy. Quote from Kendall; " I am blown away from Dan's work. These guitars are not the typical off the shelf bolt on or set in neck designed instruments, their neck thru body design delivers unbelievable sustain and superb playability like no other. He is a total professional in every way and my new MK Mach Series guitars play amazing. The MK Mach I and MK Mach II are the most consistent playing guitars with tone and playability that I have ever picked up, these guitars really rock". We have come up with the 1st line. They will be the "Mark Kendall Mach Series." Each guitar will come with an autographed 8x10 and a certificate of authenticity.
