

ELATION reviews are coming in! Some recent quotes:

"ELATION has to be up there as one of the best albums of 2012 so far." ~ Nikk Gunns at GetReadyToRock.Me.uk

9 out of 10 rating. "An overall amazing sounding CD. Top notch production and songwriting really stands out. Terry's vocals are amazing in all the right places." ~ AuditorySlam.wordpress.com

"A great band is still a great band when a key member leaves, and a great voice is a great voice. When all is said and done 'Elation' is a great collection of songs by a group of musician's who still know how to write a great song. " ~ Jo Rockpit at TheRockPit.net

"It is a review with a lot of positive superlatives, but I have to do. This is currently my album of 2012. Super!" (translated) ~ Thierry at HellSpawn.be
